

To what extent can we change our lives?

Flowers for Algernon

Daniel Keyes

Part 1

progris riport 1—march 5 1965

Dr Strauss says I shud rite down what I think and evrey thing that happins to me from now on. I dont know why but he says its impo-
tant so they will see if they will use me. I hope they use me. Miss Kinnian says maybe they can make me smart. I want to be smart. My name is Charlie Gordon. I am 37 years old and 2 weeks ago was my birthday. I have nothing more to rite now so I will close for today.

progris riport 2—march 6

I had a test today. I think I failed it. and I think that maybe now they wont use me. What happind is a nice young man was in the room and he had some white cards with ink spilled all over them. He sed Charlie what do you see on this card. I was very skared even tho I had my rabbits foot in my pockit because when I was a kid I always faled tests in school and I spilled ink to.

I told him I saw a inkblot. He said yes and it made me feel good. I thot that was all but when

I got up to go he stopped me. He said now down Charlie we are not thru yet. Then I don remember so good but he wantid me to see what was in the ink. I dint see nothing in the ink but he said there was picturs there oth-
er pepul saw some picturs. I couldnt see any picturs. I reely tryed to see. I held the card close up and then far away. Then I said if I had glasses I could see better I usally only wear glasses in the movies or TV but I said they are in the closet in the hall. I got them. Then I said let me see that card agen I bet Ill find it now.

I tryed hard but I still couldnt find the picturs I only saw the ink. I told him maybe I need new glasses. He rote something down on a piece of paper and I got skared of faling the test. He told him it was a very nice inkblot with littel spots all around the eges. He looked very sad so I didnt want it. I said please let me try agen. Ill get it in a few minits becaus Im not so fast some times. Im a slow reeder too in Miss Kinnians class. I am slow adults but Im trying very hard.

He gave me a chance with another card. It had 2 kinds of ink spilled on it red and blue.

He was very nice and talked slow like Miss Kinnian does and he explained it to me.

was a *raw shok*.¹ He said pepul see things in the ink. I said show me where. He said think. I told him I think a inkblot but that wasnt rite eather. He said what does it remind you—pretend something. I closd my eyes for a long time to pretend. I told him I pretend a fowntan pen with ink leaking all over a table cloth. Then he got up and went out.

I dont think I passd the *raw shok* test.

progris riport 3—march 7

Dr Strauss and Dr Nemur say it dont matter about the inkblots. I told them I dint spill the ink on the cards and I couldnt see anything in the ink. They said that maybe they will still use me. I said Miss Kinnian never gave me tests like that one only spelling and reading. They said Miss Kinnian told that I was her bestist pupil in the adult nite scool becaus I tryed the handist and I reely wantid to lern. They said how come you went to the adult nite scool all by yourself Charlie. How did you find it. I said I askd pepul and sumbody told me where I should go to lern to read and spell good. They said why did you want to. I told them becaus all my life I wantid to be smart and not dumb. But its very hard to be smart. They said you know it will probly be tempirery. I said yes. Miss Kinnian told me. I dont care if it herts. Later I had more crazy tests today. The nice lady who gave it me told me the name and I asked her how do you spellit so I can rite it in my progris riport. THEMATIC APPERCEPTION TEST.² I dont know the frist 2 words but I know what *test* means. You got to pass it or you get bad marks. This test lookd easy becaus I could see the picturs. Only this time she dint want me to tell her the picturs. That mixd me up. I said the man yesterday said I should tell him what I saw in the ink she said

that dont make no difrence. She said make up storys about the pepul in the picturs.

I told her how can you tell storys about pepul you never met. I said why shud I make up lies. I never tell lies any more becaus I always get caut.

She told me this test and the other one the *raw shok* was for getting personalty. I laffed so hard. I said how can you get that thing from inkblots and fotos. She got sore and put her picturs away. I dont care. It was sily. I gess I faled that test too.

Later some men in white coats took me to a difernt part of the hospitul and gave me a game to play. It was like a race with a white mouse. They called the mouse Algernon. Algernon was in a box with a lot of twists and turns like all kinds of walls and they gave me a pencil and a paper with lines and lots of boxes. On one side it said START and on the other end it said FINISH. They said it was *amazed*³ and that Algernon and me had the same *amazed* to do. I dint see how we could have the same *amazed* if Algernon had a box and I had a paper but I dint say nothing. Anyway there wasnt time because the race started.

One of the men had a watch he was trying to hide so I woudnt see it so I tryed not to look and that made me nervus.

Anyway that test made me feel worsen than all the others because they did it over 10 times with diferent *amazeds* and Algernon won every time. I dint know that mice were so smart. Maybe thats becaus Algernon is a white mouse. Maybe white mice are smarter than other mice.

1. *raw shok*: Rorschach (rôr' shäk) Test: a test in which responses to a series of inkblots are interpreted.

2. *Thematic Apperception Test*: another test.

3. *amazed*: a maze: a confusing network of winding paths used in psychological tests.

progris riport 4—Mar 8

Their going to use me! Im so exited I can hardly write. Dr Nemur and Dr Strauss had a argament about it first. Dr Nemur was in the office when Dr Strauss brot me in. Dr Nemur was worried about using me but Dr Strauss told him Miss Kinnian rekemmeded me the best from all the pepul who she was teaching. I like Miss Kinnian becaus shes a very smart teacher. And she said Charlie your going to have a second chance. If you volenteer for this experament you mite get smart. They dont know if it will be perminint but theirs a chance. Thats why I said ok even when I was scared because she said it was an operashun. She said dont be scared Charlie you done so much with so little I think you deserv it most of all.

So I got scaird when Dr Nemur and Dr Strauss argud about it. Dr Strauss said I had something that was very good. He said I had a good *motor-vation*.⁴ I never even knew I had that. I felt proud when he said that not every body with an eye-q⁵ of 68 had that thing. I dont know what it is or where I got it but he said Algernon had it too. Algernons *motor-vation* is the cheese they put in his box. But it cant be that because I didnt eat any cheese this week.

Then he told Dr Nemur something I dint understand so while they were talking I wrote down some of the words.

He said Dr Nemur I know Charlie is not what you had in mind as the first of your new brede of intelek** (coudnt get the word) superman. But most pepul of his low ment** are host** and uncoop** and they are usualy dull apath** and hard to reach. He has a good natcher hes intristed and eager to please.

Dr Nemur said remember he will be the first human beeng ever to have his intelijence tripled by surgicle meens.

Dr Strauss said exakly. Look at how well he lerned to read and write for his low mentel age its as grate an acheve** as you and I lerning einstines therey of **vity without help. That shows the intenss motor-vation. Its comparat** a tremen** achev** I say we use Charlie.

I dint get all the words and they were talking to fast but it sounded like Dr Strauss was on my side and like the other one wasnt.

Then Dr Nemur nodded he said all right maybe your right. We will use Charlie. When he said that I got so exited I jumped up and shook his hand for being so good to me. I told him thank you doc you wont be sorry for giving me a second chance. And I mean it like I told him. After the operashun Im gonna try to be smart. Im gonna try awful hard.

progris riport 5—Mar 10

Im skared. Lots of people who work here and the nurses and the people who gave me the tests came to bring me candy and wish me luck. I hope I have luck. I got my rabbits foot and my lucky penny and my horse shoe. Only a black cat crossed me when I was comming to the hospitil. Dr Strauss says dont be supersill Charlie this is siencie. Anyway Im keeping my rabbits foot with me.

I asked Dr Strauss if Ill beat Algernon in a race after the operashun and he said maybe if the operashun works Ill show that mouse I can be as smart as he is. Maybe smarter. Then Ill be able to read better and spell the words good and know lots of things and be like other people. I want to be smart like other people.

4. *motor-vation*: motivation.

5. *eye-q*: I.Q.: Intelligence Quotient—a measurement of a person's intelligence. An average I.Q. is 90–100.

DANCE YOU MONSTER TO MY SOFT SONG, 1922. Paul Klée. The Solomon R. Guggenheim Museum, New York.

works perminint they will make everybody smart all over the world.

They dint give me anything to eat this morning. I dont know what that eating has to do with getting smart. Im very hungry and Dr Nemur took away my box of candy. That Dr Nemur is a grouch. Dr Strauss says I can have it back after the operashun. You cant eat befor a operashun. . . .

Progress Report 6—Mar 15

The operashun dint hurt. He did it while I was sleeping. They took off the bandijis from my eyes and my head today so I can make a PROGRESS REPORT. Dr Nemur who

looked at some of my other ones says I spell PROGRESS wrong and he told me how to spell it and REPORT too. I got to try and remember that.

I have a very bad memary for spelling. Dr Strauss says its ok to tell about all the things that happin to me but he says I shoud tell more about what I feel and what I think. When I told him I dont know how to think he said try. All the time when the bandijis were on my eyes I tryed to think. Nothing happened. I dont know what to think about. Maybe if I ask him he will tell me how I can think now that Im suppose to get smart. What do smart people think about. Fancy things I suppose. I wish I knew some fancy things alredy.

Progress Report 7—mar 19

Nothing is happening. I had lots of tests and different kinds of races with Algernon. I hate that mouse. He always beats me. Dr Strauss said I got to play those games. And he said some time I got to take those tests over again. These inkblots are stupid. And those pictures are stupid too. I like to draw a picture of a man and a woman but I wont make up lies about people.

I got a headache from trying to think so much. I thot Dr Strauss was my friend but he dont help me. He dont tell me what to think or when Ill get smart. Miss Kinnian dint come to see me. I think writing these progress reports are stupid too.

Progress Report 8—Mar 23

Im going back to work at the factory. They said it was better I shud go back to work but I cant tell anyone what the operashun was for and I have to come to the hospitil for an hour evry night after work. They are gonna pay me mony every month for lerning to be smart.

Im glad Im going back to work because I miss my job and all my friends and all the fun we have there.

Dr Strauss says I shud keep writing things down but I dont have to do it every day just when I think of something or something speshul happens. He says dont get discoridged because it takes time and it happens slow. He says it took a long time with Algernon before he got 3 times smarter than he was before. Thats why Algernon beats me all the time because he had that operashun too. That makes me feel better. I could probly do that *amazed* faster than a reglar mouse. Maybe

some day Ill beat Algernon. Boy that would be something. So far Algernon looks like he might be smart permanent.

Mar 25

(I dont have to write PROGRESS REPORT on top any more just when I hand it in once a week for Dr Nemur to read. I just have to put the date on. That saves time)

We had a lot of fun at the factory today. Joe Carp said hey look where Charlie had his operashun what did they do Charlie put some brains in. I was going to tell him but I remembered Dr Strauss said no. Then Frank Reilly said what did you do Charlie forget your key and open your door the hard way. That made me laff. Their really my friends and they like me.

Sometimes somebody will say hey look at Joe or Frank or George he really pulled Charlie Gordon. I dont know why they say that but they always laff. This morning Amos Boy who is the 4 man at Donnegans used my name when he shouted at Ernie the office boy. Ernie lost a packige. He said Ernie for godsake what are you trying to be a Charlie Gordon. I dont understand why he said that. I never lost any packiges.

Mar 28

Dr Strauss came to my room tonight to see why I dint come in like I was suppose to. I told him I dont like to race with Algernon any more. He said I dont have to for a while but shud come in. He had a present for me only it wasnt a present but just for lend. I thot it was a little television but it wasnt. He said I got to turn it on when I got to sleep. I said your

Why shud I turn it on when Im going to sleep. Who ever herd of a thing like that. But I want to get smart I got to do what he told him I dint think I was going to get smart and he put his hand on my sholder and said Charlie you dont know it yet but your getting smarter all the time. You wont notice for a while I think he was just being nice to make me feel good because I dont look any smarter.

Oh yes I almost forgot. I asked him when I can go back to the class at Miss Kinnians school. He said I wont go their. He said that soon Miss Kinnian will come to the hospitil to start and teach me speshul. I was mad at her for not comming to see me when I got the operashun but I like her so maybe we will be friends again.

Mar 29

That crazy TV kept me up all night. How can I sleep with something yelling crazy things all night in my ears. And the nutty pictures. Wow. I dont know what it says when Im up so how am I going to know when Im sleeping.

Dr Strauss says its ok. He says my brains are lerning when I sleep and that will help me when Miss Kinnian starts my lessons in the hospitil (only I found out it isnt a hospitil its a labatory). I think its all crazy. If you can get smart when your sleeping why do people go to school. That thing I dont think will work. I use to watch the late show and the late late show on TV all the time and it never made me smart. Maybe you have to sleep while you watch it.

Progress Report 9—April 3

Dr Strauss showed me how to keep the TV turned low so now I can sleep. I don't hear a

thing. And I still dont understand what it says. A few times I play it over in the morning to find out what I lerned when I was sleeping and I don't think so. Miss Kinnian says Maybe its another langwidge or something. But most times it sounds american. It talks so fast faster then even Miss Gold who was my teacher in 6 grade and I remember she talked so fast I coundt understand her.

I told Dr Strauss what good is it to get smart in my sleep. I want to be smart when Im awake. He says its the same thing and I have two minds. Theres the *subconscious* and the *conscious* (thats how you spell it). And one dont tell the other one what its doing. They dont even talk to each other. Thats why I dream. And boy have I been having crazy dreams. Wow. Ever since that night TV. The late late late late late show.

I forgot to ask him if it was only me or if everybody had those two minds.

(I just looked up the word in the dictionary Dr Strauss gave me. The word is *subconscious*. *adj. Of the nature of mental operations yet not present in consciousness; as, subconscious conflict of desires.*) There's more but I still dont know what it means. This isnt a very good dictionary for dumb people like me.

Anyway the headache is from the party. My friends from the factery Joe Carp and Frank Reilly invited me to go with them to Muggsys Saloon for some drinks. I dont like to drink but they said we will have lots of fun. I had a good time.

Joe Carp said I should show the girls how I mop out the toilet in the factory and he got me a mop. I showed them and everyone laffed when I told that Mr Donnegan said I was the best janiter he ever had because I like my job and do it good and never come late or miss a day except for my operashun.

I said Miss Kinnian always said Charlie be proud of your job because you do it good.

Everybody laffed and we had a good time and they gave me lots of drinks and Joe said Charlie is a card when hes potted. I dont know what that means but everybody likes me and we have fun. I cant wait to be smart like my best frends Joe Carp and Frank Reilly.

I dont remember how the party was over but I think I went out to buy a newspaper and coffe for Joe and Frank and when I came back there was no one their. I looked for them all over till late. Then I dont remember so good but I think I got sleepy or sick. A nice cop brot me back home. Thats what my landlady Mrs Flynn says.

But I got a headache and big lump on my head and black and blue all over. I think maybe I fell but Joe Carp says it was the cop they beat up drunks some times. I dont think so. Miss Kinnian says cops are to help people. Anyway I got a bad headache and Im sick and hurt all over. I dont think Ill drink anymore.

April 6

I beat Algernon! I dint even know I beat him until Burt the tester told me. Then the second time I lost because I got so exited I fell off the chair before I finished. But after that I beat him 8 more times. I must be getting smart to beat a smart mouse like Algernon. But I dont *feel* smarter.

I wanted to race Algernon some more but Burt said thats enough for one day. They let me hold him for a minit. Hes not so bad. Hes soft like a ball of cotton. He blinks and when he opens his eyes their black and pink on the eyes.

I said can I feed him because I felt bad to beat him and I wanted to be nice and make frends. Burt said no Algernon is a very spec-

shul mouse with an operashun like mine, and he was the first of all the animals to stay smart so long. He told me Algernon is so smart that every day he has to solve a test to get his food. Its a thing like a lock on a door that change every time Algernon goes in to eat so he has to lern something new to get his food. That made me sad because if he couldnt lern he would be hungry.

I dont think its right to make you pass a test to eat. How would Dr Nemur like it to have to pass a test every time he wants to eat. I think Ill be frends with Algernon.

April 9

Tonight after work Miss Kinnian was at the laboratory. She looked like she was glad to see me but scared. I told her dont worry Miss Kinnian Im not smart yet and she laffed. She said have confidence in you Charlie the way you struggled so hard to read and right better than all the others. At werst you will have it for a littel wile and your doing somthing for sience.

We are reading a very hard book. I never read such a hard book before. Its called *Robinson Crusoe* about a man who gets merooned on a dessert Iland. Hes smart and figers out all kinds of things so he can have a house and food and hes a good swimmer. Only I feel some because hes all alone and has no frends. But I think their must be somebody else on the iland because theres a picture with his funny umbrella looking at footprints. I hope he gets a frend and not be lonely.

April 10

Miss Kinnian teaches me to spell better. She says look at a word and close your eyes and

over and over until you remember. I have lots of trouble with *through* that you say *threw* and *enough* and *tough* that you dont say *enew* and *tew*. You got to say *enuff* and *tuff*. Thats how I use to write it before I started to get smart. Im confused but Miss Kinnian says theres no reason in spelling.

Apr 14

Finished *Robinson Crusoe*. I want to find out more about what happens to him but Miss Kinnian says thats all there is. *Why*

Apr 15

Miss Kinnian says Im lerning fast. She read some of the Progress Reports and she looked at me kind of funny. She says Im a fine person and Ill show them all. I asked her why. She said never mind but I shoudnt feel bad if I find out that everybody isnt nice like I think. She said for a person who god gave so little to you done more then a lot of people with brains they never even used. I said all my friends are smart people but there good. They like me and they never did anything that wasnt nice. Then she got something in her eye and she had to run out to the ladys room.

Apr 16

Today, I lerned the *comma*, this is a comma or a period, with a tail, Miss Kinnian, says its important, because, it makes writing, better, she said, somebody, coud lose, a lot of money, if a comma, isnt, in the, right place, I dont have, any money, and I dont see, how a comma, keeps you, from losing it, But she says, everybody, uses commas, so Ill use, them too,

Apr 17

I used the comma wrong. Its punctuation. Miss Kinnian told me to look up long words in the dictionary to lern to spell them. I said whats the difference if you can read it anyway. She said its part of your education so now on Ill look up all the words Im not sure how to spell. It takes a long time to write that way but I think Im remembering. I only have to look up once and after that I get it right. Anyway thats how come I got the word *punctuation* right. (Its that way in the dictionary.) Miss Kinnian says a period is punctuation too, and there are lots of other marks to lern. I told her I thot all the periods had to have tails but she said no.

You got to mix them up. she showed? me” how. to mix! them(up, and now; I can! mix up all kinds” of punctuation, in! my writing? There, are lots! of rules? to lern; but Im gettin’g them in my head.

One thing I? like about, Dear Miss Kinnian: (thats the way it goes in a business letter if I ever go into business) is she, always gives me’ a reason” when—I ask. She’s a gen’ius! I wish! I cou’d be smart” like, her;

(Punctuation, is; fun!)

Apr 18

What a dope I am! I didn’t even understand what she was talking about. I read the grammar book last night and it explanes the whole thing. Then I saw it was the same way as Miss Kinnian was trying to tell me, but I didn’t get it, I got up in the middle of the night, and the whole thing straightened out in my mind.

Miss Kinnian said that the TV working in my sleep helped out. She said I reached a plateau. Thats like the flat top of a hill.

After I figgered out how punctuation

worked, I read over all my old Progress Reports from the beginning. Boy, did I have crazy spelling and punctuation! I told Miss Kinnian I ought to go over the pages and fix all the mistakes but she said, "No, Charlie, Dr. Nemur wants them just as they are. That's why he let you keep them after they were photostated, to see your own progress. You're coming along fast, Charlie."

That made me feel good. After the lesson I went down and played with Algernon. We don't race any more.

April 20

I feel sick inside. Not sick like for a doctor, but inside my chest it feels empty like getting punched and a heartburn at the same time.

I wasn't going to write about it, but I guess I got to, because its important. Today was the first time I ever stayed home from work.

Last night Joe Carp and Frank Reilly invited me to a party. There were lots of girls and some men from the factory. I remembered how sick I got last time I drank too much, so I told Joe I didn't want anything to drink. He gave me a plain coke instead. It tasted funny, but I thought it was just a bad taste in my mouth.

We had a lot of fun-for a while. Joe said I should dance with Ellen and she would teach me the steps. I fell a few times and I couldn't understand why because no one else was dancing besides Ellen and me. And all the time I was tripping because somebody's foot was always sticking out.

Then when I got up I saw the look on Joe's face and it gave me a funny feeling in my stomach. "He's a scream," one of the girls said. Everybody was laughing.

Frank said, "I ain't laughed so much since

we sent him off for the newspaper that night Muggsy's and ditched him."

"Look at him. His face is red."

"He's blushing. Charlie is blushing."

"Hey, Ellen, what'd you do to Charlie? I never saw him act like that before."

I didn't know what to do or where to turn. Everyone was looking at me and laughing and I felt naked. I wanted to hide myself. I ran out into the street and threw up. Then I walked home. It's a funny thing I never knew that Joe and Frank and the others liked to have me around all the time to make fun of me. Now I know what it means when they say "to pull Charlie Gordon."

I'm ashamed.

CONTACT OF TWO MUSICIANS, 1922. Paul Klée. The Solomon R. Guggenheim Museum, New York.

Progress Report 10

April 21

Still didn't go into the factory. I told Mrs. Flynn my landlady to call and tell Mr. Donagan I was sick. Mrs. Flynn looks at me very funny lately like she's scared of me.

I think it's a good thing about finding out how everybody laughs at me. I thought about it a lot. It's because I'm so dumb and I don't even know when I'm doing something dumb. People think it's funny when a dumb person can't do things the same way they can.

Anyway, now I know I'm getting smarter every day. I know punctuation and I can spell good. I like to look up all the hard words in the dictionary and I remember them. I'm reading a lot now, and Miss Kinnian says I read very fast. Sometimes I even understand what I'm reading about, and it stays in my mind. There are times when I can close my eyes and think of a page and it all comes back like a picture.

Besides history, geography, and arithmetic, Miss Kinnian said I should start to learn a few foreign languages. Dr. Strauss gave me some more tapes to play while I sleep. I still don't understand how that conscious and unconscious mind works, but Dr. Strauss says not to worry yet. He asked me to promise that when I start learning college subjects next week I wouldn't read any books on psychology⁶—that is, until he gives me permission.

I feel a lot better today, but I guess I'm still a little angry that all the time people were laughing and making fun of me because I wasn't so smart. When I become intelligent like Dr. Strauss says, with three times my I.Q. of 68, then maybe I'll be like everyone else and people will like me and be friendly.

I'm not sure what an I.Q. is. Dr. Nemur said it was something that measured how intelligent

you were—like a scale in the drugstore weighs pounds. But Dr. Strauss had a big argument with him and said an I.Q. didn't weigh intelligence at all. He said an I.Q. showed how much intelligence you could get, like the numbers on the outside of a measuring cup. You still had to fill the cup up with stuff.

Then when I asked Burt, who gives me my intelligence tests and works with Algernon, he said that both of them were wrong (only I had to promise not to tell them he said so). Burt says that the I.Q. measures a lot of different things including some of the things you learned already, and it really isn't any good at all.

So I still don't know what I.Q. is except that mine is going to be over 200 soon. I didn't want to say anything, but I don't see how if they don't know *what* it is, or *where* it is—I don't see how they know *how much* of it you've got.

Dr. Nemur says I have to take a *Rorschach Test* tomorrow. I wonder what *that* is.

April 22

I found out what a *Rorschach* is. It's the test I took before the operation—the one with the inkblots on the pieces of cardboard. The man who gave me the test was the same one.

I was scared to death of those inkblots. I knew he was going to ask me to find the pictures and I knew I wouldn't be able to. I was thinking to myself, if only there was some way of knowing what kind of pictures were hidden there. Maybe there weren't any pictures at all. Maybe it was just a trick to see if I was dumb enough to look for something that wasn't

6. **psychology** (sī käl' ə jē): science that studies the mind and reasons for the way people think and act.

there. Just thinking about that made me sore at him.

"All right, Charlie," he said, "you've seen these cards before, remember?"

"Of course I remember."

The way I said it, he knew I was angry, and he looked surprised. "Yes, of course. Now I want you to look at this one. What might this be? What do you see on this card? People see all sorts of things in these inkblots. Tell me what it might be for you—what it makes you think of."

I was shocked. That wasn't what I had expected him to say at all. "You mean there are no pictures hidden in those inkblots?"

He frowned and took off his glasses. "What?"

"Pictures. Hidden in the inkblots. Last time you told me that everyone could see them and you wanted me to find them too."

He explained to me that the last time he had used almost the exact same words he was using now. I didn't believe it, and I still have the suspicion that he misled me at the time just for the fun of it. Unless—I don't know any more—could I have been *that* feeble-minded?

We went through the cards slowly. One of them looked like a pair of bats tugging at something. Another one looked like two men fencing with swords. I imagined all sorts of things. I guess I got carried away. But I didn't trust him any more, and I kept turning them around and even looking on the back to see if there was anything there I was supposed to catch. While he was making his notes, I peeked out of the corner of my eye to read it. But it was all in code that looked like this:

WF+A DdF-Ad orig. WF-A SF+obj

The test still doesn't make sense to me. It seems to me that anyone could make up lies about things that they didn't really see. How

could he know I wasn't making a fool of him mentioning things that I didn't really imagine? Maybe I'll understand it when Dr. Strauss lets me read up on psychology.

April 25

I figured out a new way to line up the machines in the factory, and Mr. Donnelly says it will save him ten thousand dollars a year in labor and increased production. He gave me a \$25 bonus.

I wanted to take Joe Carp and Frank Reilly out to lunch to celebrate, but Joe said he had to buy some things for his wife, and Frank said he was meeting his cousin for lunch. I guess it will take a little time for them to get used to the changes in me. Everybody seems to be frightened of me. When I went over to Amos Boyer and tapped him on the shoulder, he jumped up in the air.

People don't talk to me much any more, or kid around the way they used to. It makes the job kind of lonely.

April 27

I got up the nerve today to ask Miss Kinnian to have dinner with me tomorrow night to celebrate my bonus.

At first she wasn't sure it was right, but I asked Dr. Strauss and he said it was okay. Dr. Strauss and Dr. Nemur don't seem to be getting along so well. They're arguing all the time. This evening when I came in to ask Dr. Strauss about having dinner with Miss Kinnian, I heard them shouting. Dr. Nemur was saying that it was *his* experiment and *his* research, and Dr. Strauss was shouting back that he contributed just as much, because he found me through Miss Kinnian and he performed the

operation. Dr. Strauss said that someday thousands of neurosurgeons⁷ might be using his technique all over the world.

Dr. Nemur wanted to publish the results of the experiment at the end of this month. Dr. Strauss wanted to wait a while longer to be sure. Dr. Strauss said that Dr. Nemur was more interested in the Chair of Psychology at Princeton⁸ than he was in the experiment. Dr. Nemur said that Dr. Strauss was nothing but an opportunist who was trying to ride to glory on his coattails.

When I left afterward, I found myself trembling. I don't know why for sure, but it was as if I'd seen both clearly for the first time. I remember hearing Burt say that Dr. Nemur had a shrew of a wife who was pushing him all the time to get things published so that he could become famous. Burt said that the dream of her life was to have a big shot husband.

Was Dr. Strauss really trying to ride on his coattails?

April 28

I don't understand why I never noticed how beautiful Miss Kinnian really is. She has brown eyes and feathery brown hair that comes to the top of her neck. She's only thirty-four! I think from the beginning I had the feeling that she was an unreachable genius—and very, very old. Now, every time I see her she grows younger and more lovely.

We had dinner and a long talk. When she said that I was coming along so fast that soon she'd be leaving her behind, I laughed.

It's true, Charlie. You're already a better reader than I am. You can read a whole page at a glance while I can take in only a few lines at a time. And you remember every single thing

you read. I'm lucky if I can recall the main thoughts and the general meaning."

"I don't feel intelligent. There are so many things I don't understand."

She took out a cigarette and I lit it for her. "You've got to be a *little* patient. You're accomplishing in days and weeks what it takes normal people to do in half a lifetime. That's what makes it so amazing. You're like a giant sponge now, soaking things in. Facts, figures, general knowledge. And soon you'll begin to connect them, too. You'll see how the different branches of learning are related. There are many levels, Charlie, like steps on a giant ladder that take you up higher and higher to see more and more of the world around you.

"I can see only a little bit of that, Charlie, and I won't go much higher than I am now, but you'll keep climbing up and up, and see more and more, and each step will open new worlds that you never even knew existed." She frowned. "I hope . . . I just hope to God—"

"What?"

"Never mind, Charles. I just hope I wasn't wrong to advise you to go into this in the first place."

I laughed. "How could that be? It worked, didn't it? Even Algernon is still smart."

We sat there silently for a while and I knew what she was thinking about as she watched me toying with the chain of my rabbit's foot and my keys. I didn't want to think of that possibility any more than elderly people want to think of death. I *knew* that this was only the beginning. I knew what she meant about levels because I'd seen some of them already. The thought of leaving her behind made me sad.

I'm in love with Miss Kinnian.

7. **neurosurgeons** (nōor' ō sar' jənz): doctors who operate on the brain and spinal cord.

8. **Chair of Psychology at Princeton**: an appointment as professor of psychology at Princeton University.
